CAREER INTEGRATED PROGRAM

UTE proudly presents to the Term IV students our Career Integrated Program (CIP) and their pathway to graduation.

Starting from Term IV students will embark on a structured pathway that integrates the opportunity to identify real-world challenges through research and stakeholder analysis. They will also develop solutions through business models or research frameworks. In addition, they will also gain hands-on experience through industrial placement work. To complete the process, they can either launch a startup or complete a high-quality academic thesis.

CIP is a major milestone for our undergraduate program. It marks a significant step forward in preparing our students for future success by integrating academic learning with practical experience.

The event was very engaging, especially with the distinguished guest speaker Dr. Pradeep Tiwari from MRI Publication Pvt. Ltd., whose expertise and insights added tremendous value to the session.

BUSINESS AND ENTREPRENEURSHIP WORKSHOP

This March, we proudly hosted a dynamic and impactful Business & Entrepreneurship Workshop, bringing together students and aspiring entrepreneurs for an inspiring and practical learning experience.

The session featured our distinguished guest speaker, Mr. Jesse McCaul, Director of Invest Cambodia and an accomplished entrepreneur, who shared valuable real-world insights into business practices, entrepreneurial thinking, and how to identify opportunities in today's fast-changing market landscape.

Throughout the workshop, participants were introduced to key concepts in entrepreneurship, including innovation, market awareness, and strategic decision-making. Mr. McCaul highlighted the importance of adaptability, resilience, and forward-thinking in building and sustaining successful ventures, while also sharing practical examples from his own professional journey.

Students actively engaged in the session, gaining a deeper understanding of how to turn ideas into actionable plans, navigate challenges in business environments, and develop a mindset geared toward growth and opportunity. The workshop served as a valuable platform for participants to connect theory with real-world application, empowering them to think critically and creatively about their future careers.

We extend our sincere appreciation to Mr. Jesse McCaul for delivering such an insightful and motivating session, and to all participants whose enthusiasm and engagement made the event a great success. We look forward to continuing to provide opportunities that inspire innovation, leadership, and entrepreneurial excellence.

UTE WOMEN'S BASKETBALL TEAM

We are proud to introduce the UTE Women's Basketball Team—a group of passionate, dedicated, and talented athletes who represent the spirit of teamwork, determination, and excellence.

This incredible squad brings together students who share not only a love for the game but also a commitment to growth, discipline, and unity both on and off the court. Through training, teamwork, and perseverance, they continue to build strong bonds while striving for success in every match they play.

Beyond basketball, UTE is proud to offer a vibrant student life with over a dozen clubs designed to support student interests and talents. From football, music, media, dance, cooking, IT, and esports to many more, students have countless opportunities to explore their passions, build friendships, and develop new skills outside the classroom.

We also encourage student leadership and initiative—any student can create a new club by submitting a proposal to the Student Engagement Committee, helping shape a dynamic and inclusive campus community. Let's cheer on our team and celebrate the spirit of student engagement at UTE!

FACULTY ORIENTATION AND NEW TERM KICK OFF

As we wrap up an eventful and productive March, we are pleased to highlight another important milestone—the successful Faculty Orientation, marking the beginning of a new academic term at UTE.

Our academic team warmly welcomed new faculty members on board, creating a collaborative and engaging environment to ensure a strong start for the term ahead. The orientation served as a comprehensive introduction to UTE's academic ecosystem, values, and expectations, reinforcing our shared commitment to delivering high-quality education.

During the session, faculty members were introduced to UTE's academic platform, teaching methodologies, and institutional philosophy. Special emphasis was placed on student-centered learning, practical and career-focused education, and maintaining academic excellence across all programs. Faculty were guided through essential tools and systems that support course delivery, assessment, and student engagement.

The orientation also covered practical aspects of teaching at UTE, including course planning, classroom management, academic integrity, and effective communication with students. These sessions were designed to ensure that all faculty members are well-prepared, confident, and aligned with UTE's standards before stepping into the classroom.

Beyond technical preparation, the orientation fostered a sense of community and collaboration among faculty members. It provided an opportunity to exchange ideas, share experiences, and build connections that will contribute to a supportive and dynamic teaching environment throughout the term.

At UTE, we believe that empowering our educators is key to student success. By investing in faculty development and alignment, we ensure that every course is delivered with quality, consistency, and impact.

We are excited for the term ahead and look forward to seeing our faculty and students achieve great success together.

COURSE REFLECTION: FINANCIAL LITERACY

SAM SOKHETHIDA

After learning about financial literacy, I have come to understand the importance of creating a clear budget to manage my income, expenses, save for emergencies, and reduce unnecessary spending. I now see the value of setting aside money regularly, not just for short-term needs but also for long-term goals, and I've begun to know the difference between good investments and bad investments.

This class has helped me change my perspective on money, shifting from viewing it as something to spend the way I want to recognize it as a tool for security, growth, and opportunity. I've also learned how to make better budget plans when preparing for trips, ensuring that I can enjoy experiences without overspending.

Ultimately, financial literacy will give me the confidence to take control of my financial future and make more thoughtful decisions. Furthermore, I think everyone must learn about finances so they can stay wealthy for a long time without stressing out or being trapped with a pile of debt.

After taking this financial literacy course, I have gained a much clearer understanding of how to manage my money responsibly. I've learned how important it is to make a budget, save regularly, and avoid unnecessary spending. I also understand now the difference between smart investments and risky ones, and how money can be a tool for security and opportunities,

CHHIT CHANREAKSMEY

not just something to spend quickly. Planning for trips or future goals feels less stressful because I know how to manage my money better. Beyond that, I've realized financial discipline isn't just about numbers it's about patience, self-control, and being intentional with my spending. This course has given me more confidence to make smarter financial choices, and I think everyone should learn these skills to live more secure and stress-free.

Throughout the course, I have learned a lot about how to manage my finances better, minimize my spending habits, and gain more knowledge about the financial world; the wins, the mistakes, and everything in between. Along the way, I learned many formulas which also help me with my future life. Plus, I learned the importance of

LAY SEREYMONYREAKSMEY

knowing how to handle my finances better, as it can help me both mentally and physically. At first, I struggled due to the big differences between this subject and the major I'm studying. Nevertheless, I gradually began to understand that financial literacy is like general knowledge that we should all be aware of, and that every student should definitely learn, no matter what major they are in. The most rewarding part of the course was seeing my progress through each lesson. On the other hand, the most challenging part was not being able to catch up with the formulas easily, as they were quite confusing and complex. Despite all of these challenges, I have improved significantly. I learned what different financial terms mean and in what matter would they apply to. My goal for the future is to continue improving and learning more effectively so that I can make sure this learning experience enhances me with an effective and confident lifestyle.

THANK YOU FOR BEING PART OF UTE'S JOURNEY!

As we continue to rise and innovate, we are grateful for every member of our community, students, faculty, staff, and partners who shape UTE in to a hub of excellence and entrepreneurship. Let's keep building the future together!
